Flowering Bulbs
Sweet Peas - Etc

Arthur Yates & Co. Ltd.

Lower Albert St., AUCKLAND

Yates' Bulbs

Special

The Bulbs and Flowering Roots offered in this list are, with few exceptions, "**Colonial-grown.**" They can therefore be depended upon to give the very best results, both for exhibition and garden purposes.

All bulbs like a deep, loamy, well-worked and well-drained soil. Avoid strong manures (Steamed Bone-dust is best), and after flowering allow bulbs to thoroughly ripen off before lifting. Lift bulbs every second or third year to prevent overcrowding, dividing and replanting in the autumn.

Spring Flowering Bulbs, such as Anemones, Babianas, Freesias, Hyacinths, Ixias, Narcissus (Daffodils), Ranunculus, etc., etc., we can only supply from February to May, and these we strongly urge our customers to order early.

Summer Flowering Bulbs, as Gladioli, Lilioms, Amaryllis, Begonias, Callas, etc., can be obtained later during the winter months, but we advise sending your order now to go forward in season.

POSTAGE.—We charge postage on all Bulbs, the postage varying from 3d. per dozen on small bulbs, such as Anemones, Freesias, Ixias, Ranunculus, etc., to 1d. to 3d. per bulb on the larger bulbs of Amaryllis, Agapanthus, Hyacinths, Narcissus, Gladioli, Lilioms, etc. Where postage does not come to amount forwarded, any balance remaining will be made up with extra bulbs.

YATES' Collections of Assorted Bulbs

We would strongly advise customers to order their Bulbs in Collections; we can give much greater numbers and finer Bulbs when the selection is left to us; but if any varieties are specially mentioned as not being required we will omit them.

5/- Collection.

Contains a liberal assortment of the cheaper sorts, according to their value. Will make a good show in a small garden.

10/- Collection

Contains a good assortment of the leading favourite varieties, sufficient for a small garden. We recommend this collection for extra good value.

20/- Collection.

In this collection we include a good assortment quite sufficient for an ordinary sized garden, and will keep it gay with flowers during the early spring months.

10/- Collection of Bulbs.

For Naturalising in Grass Lawns and Banks.

We will send a good assortment of the varieties most suitable, with instructions for planting.

Anemone, or Wind Flower

One of the most effective spring-flower bordering plants. They may either be planted in rows, clumps, or masses, and will make the garden gay when there are few other flowers. The colours are endless, varying from white, rose, crimson, lilac, and blue, to dark purple. In cold districts we recommend that the roots be started in boxes or seed pans; they should be transplanted after they have started growth, choosing dull, showery weather, and setting them two or three inches deep, and four to six inches apart. Any well drained soil will suit them; keep the ground moist and mulch the surface if necessary. We strongly recommend the Colonial-grown bulbs.

Anemone, St. Brigid.

St. Brigid Strain—of assorted double, semi-double, and single flowers. Still the finest strain of Anemones obtainable, the combination of colour and shading being endless and most brilliant. We have secured splendid strains of "Colonial" and Imported grown bulbs, and offer as follows:—

			Dozen.
Colonial-grown St. Brigid	Per 100, 10/-	1	6

Cyclamen persicum (In Variety.)

Well-known winter flowering bulbous plants, which produce their blooms when other flowers are scarce.

We can supply started plants during the Autumn in assorted colours from 12/- to 15/- dozen, or each 1/3 to 1/6; Seedlings, 6/- per dozen.

Dahlias

We issue a separate list of these in our Nursery Catalogue printed in May.

YATES' Bulbs, Etc.

FOR AUTUMN AND
WINTER PLANTING
ALL POSTAGE EXTRA

Freeseias Deliciously scented flowers; succeed well in pots or open ground. They make charming table plants, planted four in a pot, and if forced in a greenhouse or frame a succession of blooms may be kept up. They should be allowed to make a good root before forcing. They flower in early spring, and are suitable for table decoration.

Improved Mixed Hybrids.

At the Auckland Horticultural Show, held in September, 1918, great interest was displayed in an exhibit of **IMPROVED MIXED HYBRID FREESIAS**. These were raised by a local enthusiast, and were remarkable for the decided and varied tints of colour obtained. Beyond question they represent a great advance upon the strains hitherto offered, as the colours are pleasing and of distinct shades of pink, purple, orange through to yellow and white.

We are now able to offer bulbs of this greatly improved strain, and would recommend everyone to grow these lovely flowers, that are suitable even for the smallest garden.

2/6 per dozen; 18/- per 100.

Freeseias can also be raised from seed with a little care. Sow the seed thinly, shading during the hot dry weather. If sown in the early autumn a good proportion of the seedlings will flower in the following spring.

Price of Seed, per Packet, 1/-.

		Dozen.	s.	d.
Refracta Alba—Pure white				
	Per 1,000, 50/-; per 100, 6/-	1	0	
Mixed	Per 1,000, 45/-; per 100, 5/6	1	0	
Burtoni—The largest flowered Freesia yet introduced. Flowers are cream with a yellow blotch, and of good substance, borne in large clusters on long stems well above the foliage. A splendid acquisition	Per 100, 17/6	2	6	

Gladioli (Small flowered):

The Bride (Colvilli Alba) — This lovely pure white variety is not grown so much as it deserves. For cutting and decorative purposes it is by far the best of the Gladioli, its medium size spikes of pure white blossoms being extremely effective both in the border and on the table. We offer Colonial-raised bulbs 17/6 100; 2 6

Peach Blossom—A delightful shade of pink that is most attractive, and should be grown in conjunction with The Bride, Colonial-grown bulbs 17/6 100; 2 6

Gladioli

Yates' Giant Hybrids.

The flowers of this strain that we have produced are of great substance and enormous size, produced on gigantic spikes, and the plants are more robust owing to the vigorous constitution they possess. Without a doubt this is the finest selection of unnamed Gladioli yet offered, and we have no hesitation in affirming that many of them are worthy to be named and ranked amongst the choicest English varieties.

We offer strong flowering bulbs at the following extremely low prices:—9d. each; 7/6 doz.; 14/- per 25; 50/- per 100. Postage extra.

YATES' Selected Named Gladioli

1/6 each; 16/- dozen, unless otherwise priced.

America—Exquisite soft lavender-pink, most beautiful colour, strong grower.

Baron Hulot—Colour a rich deep, indigo shade, attractive colour and good constitution.

Blanche—Large, snow-white, with faint markings in throat.

Countess Amy—Rosy pink, striped darker, white blotches; a good flake.

Empress of India—Dark velvety brown-red, with black markings, rare colour. One of the richest coloured dark gladioli.

Europe—Pure white, broad long-flowered spike; one of the most glorious whites in cultivation. 2/-.

Fire King—Long graceful spikes, of intense fire scarlet, a glowing and effective colour. 2/-.

Golden King—Clear yellow, with rich crimson maroon blotch, very fine spike. 2/-.

Goliath—A very fine addition to the dark coloured section, and are of the richest in colour, being deep crimson with darker shading and mottling. 2/-.

Herodian—One of the best pink flaked varieties. Brilliant rose-pink heavily flaked darker shade. Large flowers and extra long spike. 2/-.

Lady McFarren—Soft rose, ivory centre, large and beautiful. 2/-.

La Fayette — Immense bloom, rosy cream, crimson blotch.

Marie Leon—Creamy white, flushed pink, crimson blotches; vigorous.

Loveliness—Cream with faint suffusion of buff or apricot primrose inner petals, purplish throat, blue anthers, strong bold spike. 2/-.

Niagara—Delightful cream shade, lower petals shading to canary yellow, throat splashed carmine.

Peace—Beautiful white, with pale lilac flush on interior petals; good size and type, strong growth.

Pink Beauty—Fine dark rose, with velvety blotch, attractive colour; valuable for earliness.

Princeps (Amaryllis flowered)—Rich crimson, deeper shadings in throat, large white blotch. Immense flower.

Panama—An improved America, deeper rose-pink, but has the same splendid constitution.

Picadilly—A beautiful rich crimson, medium size.

Schwaben—Canary yellow, shading to soft sulphur-yellow; golden centre is blotched with brownish carmine. 2/-.

Liliums (continued)—

Longiflorum (Harrisii)—Long snowy-white trumpet-shaped flowers. Flowers expand in the open border about the New Year; also splendid for pot culture Per doz., 10/- 1 0

Spider Lily—See *Amaryllis Nerine*

Sulphureum—Flowers trumpet-shaped, 7 to 9 inches long, of great substance and extremely fragrant; outside of flower white, throat a delicate honey-yellow, changing to white. Four to five feet high 2 6

Tigrinum (Tiger Lily)—Large, single, showy, brilliantly-coloured flowers, orange-scarlet with black spots 1 0

Tigrinum Flore Pleno—Same colour as above, with large and full double flowers, lasting in perfection longer than any other kind 1 6

Ornithogalum Arabicum

Spring flowering bulbs, extremely showy, blooms white with black centre; fragrant .. Each 1 0

Ranunculus

Very pretty spring flowers, brilliantly coloured; they can be used like Anemones, for either ribbons, clumps, or masses, and are most effective. We recommend that Ranunculus and Anemones be raised in nursery beds, under cover, where they may be kept moist and shaded till they are up, when they should be transplanted to the borders; treated in this way few failures will occur.

Asiaticus—The finest strain for garden decoration. The colours are most varied, running from white through shades of pink and yellow to deep crimson. The flowers are mostly semi-double, with a proportion of single and double blooms freely borne on long stalks that stand well above the foliage. s. d.

Colonial-grown Bulbs—Per 100, 10/-; per doz. 1 6

Imported Choicest Mixed—

Per 100, 10/-; per doz. 1 6

Tritonias Beautiful Cape Bulb, after the style of Sparaxis or Ixias. They are very suitable for naturalising in grass.

Mixed—Several colours each, 3d.; doz. 2 0

Tuberose Lovely fragrant flowers, splendid for cutting. We can supply these during the winter and spring months.

Single or Double each, 9d.; doz. 7 6

Tulips Handsome for borders. They thrive best in colder districts.

Single—Mixed colours each, 4d.; doz. 3 0

Double—Mixed colours each, 6d.; doz. 5 0

Parrot—Mixed colours, a splendid class each, 9d.; doz. 7 6

Darwin—Mixed colours each, 6d.; doz. 5 0

Watsonias Strikingly handsome border plants after the style of a Gladiolus, but growing to twice the height. They dislike being moved, and should be left to grow into a clump. Can be supplied from the end of April to middle of June.

O'Brieni—Decidedly the most beautiful of the Watsonias; a most striking plant for shrubbery or open border. The main spikes go up to 5 feet high, and branch to 5 or 6 smaller ones, with beautiful snow-white flowers along each stem; a noble plant

Per doz., 5/-; each 0 6

Narcissus

 *YATES' Selected List* 
ALL POSTAGE EXTRA

To Daffodil Lovers.

This year we have considerably reduced the number of varieties, eliminating those that are either superseded by later and better sorts or are shy bloomers or of weak constitution. The result is that every variety listed comes with our recommendation for garden decoration or exhibition purposes as indicated by us. To help those not so well acquainted with the different varieties we have marked with an asterisk * a limited number of medium priced sorts that are to be found on most show stands to-day. A collection of these will enable growers to show with every confidence of success at a moderate outlay.

The numbers in brackets after each name indicate the order of flowering as regards "early," "medium" or "late" blooms.

The descriptions have been abbreviated as much as possible on account of limited space, whilst collections of Narcissus are mentioned on page 22.

DIVISION Ia.—YELLOW TRUMPETS.

Mixed Star Daffodils —All classes except Trumpets; per 100, 10/-; per doz., 1/6. Postage or freight extra.			

COLLECTIONS OF DAFFODILS.

5/- COLLECTION.

In this Collection we give Bulbs of good-named varieties in the main class, but omit the more expensive sorts.

10/- COLLECTION.

Includes a good representative selection from each class, both early and late varieties, which will provide flowers right through the Daffodil season in a small garden. We give splendid value in this Collection.

20/- COLLECTION.

In this Collection we give Bulbs to the value of 25/- if charged at list prices. Persons purchasing this Collection will have quite enough varieties to enable them to exhibit at the Daffodil Shows. When Bulbs are specially wanted for exhibition it should be mentioned when ordering; we will then send fewer Bulbs, but of choicer varieties.

YATES' Sweet Peas

Early (Winter) Flowering

Unapproached anywhere in the world for Spencer Form, Size and Range of Colour.

This class blooms more quickly than the Summer or Late Flowering Sweet Peas, and are most suitable for sowing in autumn to bloom at end of winter and early spring, except in very cold districts.

9d. per packet, unless otherwise priced.

Collection of 10 varieties, our Selection, for 5/-.

- Albury Beauty**—Soft salmon, very large flower.
Albury Lavender—A true lavender, good.
Blue Flaked—A beautiful rich deep blue, lavishly pencilled over a delicate grey-white ground, nicely waved.
Concord Charm—Delicate white and blue-white wings, light heliotrope standard, shading white.
Concord Chief—Intense rich deep maroon.
Concord Coquette—White ground, mottled light rosy carmine, standard more heavily marked.
Concord Countess Improved—Most attractive pink, with lighter tint at base of standard and wings.
Concord Daybreak—Cream changing to almost white, edged faint rose; of largest size; one of the finest.
Concord Delicata—Almost pure white, tinted blush.
Concord Emperor—A rich crimson-red, indispensable.
Concord Exquisite—A rich creamy pink or light apricot.
Concord Purple—A delightful shade of mauvy purple, changing to purple-blue; flowers of enormous size.
Concord Radiance—Rosy magenta, of the highest class.
Concord Superb—A very deep clear rose pink, of excellent form, the finest pink.
Concord Winsome—A delightful shade of pink, tinted lavender; a most fascinating colour. Blooms large.
Coerulea—A glorious Sweet Pea of the most delightful shades of delicate sky-blue, sometimes a little lighter.
Cream Beauty—Cream; of largest size and form.
Daisy Motte—White, very fine form.
Donald John Coghill—White, flaked soft salmon.
Duchess—Deep, cerise, distinct and good.
Grey Flakes—Maroon flakes on grey ground.
Laura—Deep purple maroon.
Menelik—A very fine maroon, with purple wings.
Miss Gillespie—Tints of blue and rosy mauve.
Moonstone—Light purple blue standard, blue wings.
Mrs. May Hassett—Suffused pink on cream ground.
Niobe (Re-selected)—A very fine pale lavender.
Phyllis—Deep pink, flushed mauve.
Ruby—A glowing light crimson-scarlet, blooms large.
Snowbird—A magnificent white, of largest size.
Salmonea—A rich rosy salmon, of waved form.
Thalia Motte—Crimson self, large flower.
Yarrowa—This world-famous variety was the original of Yates' Early Flowering Spencer Strain of Sweet Peas. It is of the largest size and great substance; being a deep rose-pink with wings soft blush pink.
Large packet (about 36 seeds), 1/-; **Small packet**, 6d.
Concord Blush Shades—Immense blooms of great substance. Per pkt., 6d.
Concord Mauve Shades—Exceedingly fine mauve and lavender tints; blooms of largest size. Per pkt., 6d.
Concord First Choice Spencers—This mixture contains practically every colour and tint in Sweet Peas, all of the best Spencer form, including a number of our best seedlings. Per pkt., 1/-.
Concord Hybrids—These contain many varieties of Spencer form, others of upright standard, and a few of the hooded type, but all are large flowered, and of an infinite variety of colour. Pkt., 6d.; large pkt., 1/-.

YATES' Sweet Peas

Summer Flowering

Novelties for 1921

Seed of these are due to arrive shortly from England, and orders will be executed immediately on arrival.

Descriptions are those given by the raisers.

- Picture**—Has created a sensation in England s. d.
owing to its enormous size, robust habit, and superb form. It is claimed to be the finest Sweet Pea in existence. Colour flesh-pink, with rosy flush, whole suffused and shaded creamy apricot, forming a delightful combination. The blooms are perfect in form, and are borne on exceptionally long, stout stems, carrying four to six blooms on a stem, whilst occasionally as many as eight blooms have been carried on one stem. Award of Merit R.H.S. and N.S.P.S. The "Horticultural Journal" of June, 1920, says: "Sensational would not be too extravagant a term to use in regard to 'Picture.' For size, waviness and substance it looks like the biggest advance amongst Sweet Peas. One spike I noticed had eight blooms while fives and sixes were plentiful." 2 6
- Gladys**—A lovely shade of pure lilac without the usual rose tint, a delicate and refined shade. Flowers freely, throwing nearly all fours. Will be a favourite for all purposes 2 0
- Glory**—A particularly bright glowing salmon-cerise, with flowers of enormous size and great substance. Extra long stout stems carrying four to five flowers. Good for all purposes, as its colour lasts a long time when picked .. 1 6
- Hawlmarm Maroon**—A glowing rich red maroon of ideal form and size. Clearly ranks as one of the best of the dark coloured Sweet Peas. Should find a place in every collection 2 0
- Le Madhi**—The flowers are large, wavy, and of a rich and beautiful shade of purple, blooms in fours, well placed, close together, on stout stems. Award of Merit, R.H.S. 2 0
- Mascott's Scarlet**—A magnificent and outstanding shade of scarlet, the colour being of rather richer scarlet than such usually implies. Of first-class form and size, with good stems.. 2 0
- Myrtle**—One of the most interesting novelties yet introduced. The half open buds are the nearest to yellow yet seen. In the early stages the flowers are creamy yellow, and as the flowers develop there appears, as if by magic, a bright band of violet rose resembling a rainbow. The large wavy flowers make a very effective and telling bunch 1 6
- Dominion Saved Seed, available end February.**
- Bluestone**—The standard of this striking new Sweet Pea is aniline blue flushed violet and wings aniline blue. A most vigorous grower 1 0
- Brocade**—A very distinct and pleasing satin rose tint, shaded mauve, the base of the standard being deeply suffused mauve. Plants of robust being deeply suffused mauve. Very large and well waved flowers 1 0
- Commander Godsal**—The beautifully waved flowers are a lovely shade of violet blue and perfectly placed. A gem for exhibition, bearing four and five flowered sprays 1 0

YATES' Sweet Peas

Summer Flowering

NOVELTIES FOR 1921 (continued)— Per pkt. s. d.

Daisybud —Resembles the bud of the ordinary Daisy, being a soft yet rich rose-pink on a white ground. Very long stems, each carrying four and often five perfectly placed and extra large flowers. Is a variety of greatest merit ..	1	0
Dobbie's Maroon —A rich and telling shade of red maroon, flowers of ideal shape and immense size; good for all purposes ..	1	6
Hawlmart Pink —The richest pink Sweet Pea, the plant producing in abundance long, strong stems, carrying four large beautifully frilled flowers of ideal form of a rich bright rose-pink, deeply flushed and shaded salmon. Experts pronounce it to be the finest Sweet Pea ever produced. Award of Merit, R.H.S. ..	1	6
Magic —Standard glowing rosy amethyst, deepening to blue at base. The whole bloom has a beautiful sheen which in the sunlight is beyond description. Unequalled for decoration,	1	0
Mascott's White —The finest and most solid white Sweet Pea yet offered; an ideal market variety	1	0
Salena —Standard and wings rich cream edged and flushed rosy scarlet. Flowers beautifully frilled, and of good size and habit ..	1	0

Recently Introduced Spencers

Alexander Malcolm —One of the brightest Peas imaginable, being a cerise toned and shaded orange scarlet, large, of true Spencer form ..	0	6
Edith Cavell —Rosy pink on cream ground, shading off to a bright pink edge; of extraordinary size and substance; an abundance of five and six flowered sprays. One of the best ..	1	0
Elegance, Award of Merit, R.H.S. —One of the largest, carrying four and often five perfectly placed flowers of a soft pure silvery pink ..	0	6
Empire —A charming shade of rose, having large well placed flowers on long stems; splendid ..	0	6
Ivory, Award of Merit, R.H.S. —Ivory flushed buff and salmon pink; a delicate and pleasing combination; flowers large and well formed..	1	0
Jack Cornwell, V.C. —An intense violet blue, with well shaped flowers of largest size ..	1	0
Joan of Arc —An almond blossom pink, unsurpassed for decoration; of good size and form	0	6
Mrs. G. W. Bishop, Award of Merit, R.H.S. —A most pleasing soft rich salmon cerise. Flowers of large size, and true Spencer form ..	1	0
Mrs. Arnold Hitchcock, Award of Merit, R.H.S. —A lovely pale pink on cream ground, flushed with salmon; an exquisite shade ..	1	0
Mrs. Tom Jones, Award of Merit, R.H.S. —One of the best blues obtainable, being of a bright Delphinium shade, and tinged mauve in early stages but deepening to amethyst blue ..	1	0
Mrs. J. T. Wakefield —A very distinct Pea, being a cream edged and suffused scarlet-pink, well up to exhibition form and size ..	1	0
Royal Salute —A rosy cerise on cream ground, an effective and distinct colour, large flowers ..	1	0
Sparkler —This most attractive bicolor is a rich bright rose-scarlet with cream wings faintly shaded rose pink. Usually fours, well placed	1	0
Tangerine —One of the most robust of its colour, deep orange blooms that are perfectly placed; undoubtedly the best orange to grow outside	1	0
White Perfection —A pure white of first-class quality in every respect ..	1	0

YATES' Sweet Peas

Summer Flowering

General Collection

All the following are suitable for exhibition.

	Per pkt.	s.	d.
Adelaide —Standard rich purple, wings electric blue, with a definite edging of a paler shade	0	6	
Barbara —Magnificent orange-salmon, requires shading	0	6	
Beryl —A rich soft salmon-pink shaded buff; sprays carrying four immense flowers	0	6	
Charity —Colour rich brilliant crimson; large bold flowers; very vigorous	0	6	
Cherub —A deep ivory white, or rich cream, edged bright rose; bears gigantic flowers	0	6	
Cis Wright —Waved amber buff, flushed lilac	0	6	
Constance Hinton —A real Spencer White of immense size, exquisitely frilled and waved	0	6	
Dick Bide —An artistic blending of two shades of amaranth red, of wonderful quality	0	6	
Dobbies' Cream Waved —One of the best	0	6	
Dobbies' Frilled Pink —One of the best pinks, most effective for decorative purposes	0	6	
Dora —Ground colour and wings cream, standard deep rose-pink, shaded salmon	0	6

The Havant White —One of the best	0	6
Warrior —Rich chocolate-maroon; the finest Pea of its colour ever offered	0	6
Unwin's Cream —Of fine form and shape .. .	0	6

Yates' Selected Mixtures

Yates' Giant Orchid Flowering Mixed

A magnificent mixture of Summer Flowering Tall Sweet Peas, the seed being saved by ourselves from the choicest varieties, and composed exclusively of the best waved and Spencer sorts, including the most recent of Sweet Pea introductions previous to the present year.

This mixture is absolutely unrivalled, and will meet the wants of those who grow Sweet Peas in mixture and yet desire to obtain blooms equal in colour, size, and form to the latest named varieties. We therefore ask customers to bear this in mind when comparing the price with the cheaper and less choice imported seed. Price: Small packet, 6d.; large packet, 1/-; per oz., 1/9; per ½lb., 6/-. Post free.

Yates' Superb Mixed

This strain is not selected like our Giant Orchid Flowering, but is a mixture of all the varieties we grow, containing a varied assortment of colour, including both garden and exhibition varieties. Can be relied upon to produce splendid results for garden decoration and market purposes. Price: 15/- lb.; 8/- the ½lb.; 4/6 the ¼lb.; 1/3 per oz., or per packet 6d Post free.

YATES' Collections

These do not include any Novelties listed on page 24, but are of exceptional value, being selected with due regard to variety of colour; and as our list is kept well up to date purchasers can rely upon obtaining sorts worthy of anyone's cultivation.

Yates' Exhibitors' Collection.

16 of the Best Varieties for 7/6, post free.

These comprise only those sorts which found a place in the Prize Stands of recent Shows. In former years we have submitted a list of names included in this collection, but owing to the heavy demand upon our stocks we had often to substitute, and therefore have decided to issue no list of names, but to send the very best we are able to supply.

Yates' Garden Collection.

20 Splendid Varieties for 5/-.

Yates' Garden Collection.

10 Distinct Sorts for 2/6.

We can supply a Collection containing 20 packets Vegetable Seeds, including Peas and Beans, and 12 packets Flower Seeds, which will be found sufficient for a small cottage garden.

LAWN GRASS.

The autumn is the best time for sowing Lawn Grass Seed, but it is very important that the area to be sown should be thoroughly clean of weeds, and this is only obtained by levelling the ground and allowing it to lie fallow during the summer, hoeing the surface over once a fortnight and thus clearing off the weeds, which usually make their appearance. On no account should the land be re-dug just previous to sowing the seed.

FINEST EVERGREEN.—This is a mixture of the finest dwarf varieties, mixed in the proper proportions to make a permanent evergreen turf. A plot of 10 yards square will require 3lbs. of seed, but with large areas from 80lbs. to 120lbs. to the acre are usually sown.

Price, 2/6 per lb.; 10lb. and over, 2/3 lb.

BOWLING GREENS.—We make a special mixture of those varieties of grasses which have proved to stand best in swards for this purpose. Price, 1lb., 3/-.
